------------------	---------------------------	-----------------------	----------------------	-------------------------

Premium-colored silicone may require a longer lead time, minimum order quantities and special pricing. Pre-negotiated pricing applies only to Standard Colors. Please check with your PM sales rep for further information. Though every effort is made to maintain color consistency from batch to batch, there may be slight color variations. In addition, gloss and color may vary due to weather conditions, application technique and substrate texture.

Whether you're focused on safety, branding or simply giving your roof a fresh new look, PM's custom color silicone is the ideal solution. Because we manufacture our silicone in-house, we can custom match virtually any color to meet your exact needs. Our team of expert chemists will work closely with you to ensure a precise match - and you won't receive or pay for your silicone until you're 100% satisfied with the final result.

Custom Colors

1. Send a physical sample or paint color chip number to:
Progressive Materials
ATTN: Customer Service
540 Central Court
New Albany, IN 47150
2. Once a color sample is received, PM will formulate and produce a wet sample and drawdown.
3. Color drawdown is sent to customer for approval with the PM Custom Color Acceptance Letter.
4. Once PM receives the Custom Color Acceptance Letter and Purchase Order, a final order confirmation will be sent to customer.
5. Manufacturing could take 4-6 weeks depending on pigment availability.

Ordering Custom Colors

Please reach out to your Regional Manager to discuss PM custom color pricing, to see some of the custom colors we have made in the past, or to begin the process of matching a silicone to your custom color.
